

TT Capital Partners Seeks Pre-MBA Associates

Opportunity

Healthcare private equity firm TT Capital Partners (TTCP) is seeking qualified pre-MBA candidates to join the TTCP investment team in our Minneapolis office for 2-year associate positions, one starting immediately and one for Summer 2023. Given the size of our team and the growth-stage companies in which we invest, TTCP associates enjoy a level of management access beyond private equity industry norms, and we look to recruit individuals that can excel in this role.

Qualifications

In addition to strong analytical skills and financial acumen, we seek self-starters with a great work ethic, strong communication and organization skills, integrity, and the ability to work as part of a team. Candidates must also possess the following:

- 2-4 years relevant work experience with significant M&A exposure (prior healthcare experience not required)
- Strong financial modeling skills
- Strong finance and accounting background
- Due diligence and research skills
- Attention to detail
- Proficiency in Microsoft Excel, PowerPoint, and Word
- High undergraduate GPA and a relevant degree

Responsibilities

TTCP associates play a critical role in supporting all elements of our transaction, sourcing, and portfolio monitoring processes. The position is highly dynamic, with typical responsibilities including:

- Creating financial models for new deal activity as well as portfolio support
- Researching companies and industries
- Assisting in new deal execution and diligence
- Creating investment overviews and marketing materials
- Working on miscellaneous special projects with current portfolio companies
- Interacting with senior members of the firm on other initiatives
- For more information, visit www.ttcapitalpartners.com/about/careers/.

To Apply

To apply, submit your resume to careers@ttcapitalpartners.com.

TTCP is a value-add investor for growth-driven companies shaping the future of healthcare.

We invest in healthcare IT and services companies innovating and disrupting how healthcare is delivered, managed and consumed.

Once we invest, we build meaningful and lasting partnerships with our portfolio company owners and leadership, leveraging our strengths and differentiators to help them grow, mature and drive industry change.

Our focus on healthcare combines investing experience with the strategic insights honed from operating experience and deep industry knowledge. We've made 23 investments in healthcare IT and services companies and are excited for future investments.
